

Mobile Training Center for EIA-709 and EIA-852 Networks

Mobile LonWorks Trainings for your employees and customers

Decrease travel costs for your employees

Even if you are owner or builder of a plant, hillerConsult always offers the best trainings for your cases and visits you

We offer trainings from basics up to commissioning, maintenance and analysis of LON networks.

The Mobile Training Center exists of five complete sets of workspaces including licenses for the tools. So with a maximum of two persons each workspace we are able to train up to 10 persons at any time

Connection to the network is possible ether by EIA-709, or EIA-852 Chanel. It is possible to connect the wohle Training Center to one big plant by using an IP-Backbone. It also is no problem to connect your own devices to the Mobile Training Center.

If you are an owner of a plant, get trained with basics and learn how to handle the tools before you get on administrated practice to your own network.

If you have to commissioning a site, we lead you with best practices and assist you to build up your network. At the end of any training it is possible also to get out to your project, so you will be able to get more practice under our assistance.

The Mobile Training Center is supported by companies Firmen Elka, Loytec, Newron-System, Phoenix Contact, Siemens und Sysmik.
